

## **AAP Section on Emergency Medicine Urgent Care Subcommittee, Education Subgroup**

### **Workgroup 1: Outreach to Parents and PCPs**

#### **Goals**

- Education and resources for caregivers on Urgent Care vs. Emergency Department scope of practice
- Education of primary care physicians on scope of Urgent Care
- Partner with Primary Care to help establish the medical neighborhood through the appropriate use of after hours care.

#### **In Progress**

- Developing a symptom-based sick action plan for caregivers

**Contact:** Muhammad Waseem [waseemm2001@hotmail.com](mailto:waseemm2001@hotmail.com)

### **Workgroup 2: Provider Education**

#### **Goals**

- Identify knowledge gaps of the urgent care provider between residency/training and practice, as well as opportunities for urgent care specific CME
- Develop clinical competencies for urgent care providers
- Develop & refine a curriculum for urgent care fellowship
- Develop clinical skills checklist

#### **In Progress**

- An educational needs assessment survey has been developed
- Investigating opportunities to develop a specific PREP curriculum
- Curriculum and clinical competencies for the urgent care fellowship at PM Pediatrics have been reviewed by the group. We plan to do a more thorough review of this fellowship and Emory University's fellowship over the coming year
- Skills checklist has been developed by PM Pediatrics but currently in review by subgroup.
